

Investment priorities in the agricultural sector

Horticulture subsector investment priorities

Row	Project title	Project location	Related Potential / Advantage
1	Development of greenhouses, esp. greenhouses complexes	Subsidiary cities	- Transfer of products to controlled environments - Increase efficiency
2	Improvement and renovation of Available orchards	Subsidiary cities	- Increase performance per unit area - Water efficiency - Optimal consumption of inputs
3	Development of medicinal plants, damask rose and saffron	Subsidiary cities	- Develop Water Resistant Plant - Develop the use of medicinal plants
4	Standard seedling production	Subsidiary cities	- Production of seedlings resistant to dry conditions - Optimal use of water - Production of high performance products per unit area
5	Construction of rain orchards project on steep terrains	Subsidiary cities	- Cultivation of trees resistant to water stress - Use of rain water and prevent erosion - Containment of floods

Farming subsector investment priorities

Row	Project title	Project location	Related Potential / Advantage
1	Creation of winnow sites and arranging of Self-consuming cereal crops	Subsidiary cities	- Importance of using healthy seeds - Contributing to the sustainable production of wheat and barley

Fisheries subsector investment priorities

Row	Project title	Project location	Related Potential / Advantage
1	Creation of aquatics processing and packaging units	Mahnesan	- Reducing waste and creating a supportive market to encourage aquatics consumption
2	Creation of aquatics food production units	Subsidiary cities	- Save costs in order to buy and supply of aquatics food
3	Creation of sales terminal units	Subsidiary cities	- Encouraging aquarists to increase supply of products to markets
4	Creation of tourism and recreation complex with depot of ready to cook Aquatic (Aquatic waterpark)	Subsidiary cities	- Increase in per capita consumption of aquatic in the province
5	Improving the mechanization coefficient of cold water fish(trout) production units	Subsidiary cities	-Increased production per unit area
6	Production of acipenseridae caviar in the inland waters of the province	Mahnesan, Taroom	- Creating sustainable employment - High importing of currency

Alternate industries subsector investment priorities

Row	Project title	Project location	Related Potential / Advantage
1	Vegetables and fruits processing	Subsidiary cities	- Avoid Losing horticultural and farming crops
2	Freezer	Subsidiary cities	- Enhance maintenance capability horticultural and farming crops
3	Meat processing (red, chicken and fish)	Subsidiary cities	- Avoid Losing horticultural and farming crops
4	Packaging of bee products and other modern products	Subsidiary cities	-Increased exportability of manufactured products

Livestock section subsector investment priorities

Row	Project title	Project location	Related Potential / Advantage
1	Dairy Cows plans	Subsidiary cities	-Increase milk and red meat production
2	Afshari sheep race and genetically modified goat breeding plans (for fertility)	Subsidiary cities	-Increased production of red meat production
3	Industrial silkworm plans	Subsidiary cities	-Increase employment and produce silkworm cocoons
4	Small rural projects and home jobs	Subsidiary cities	-Increase employment and attract small capital
5	Ornamental bird breeding scheme in the form of a cluster production system (value chain)	Subsidiary cities	-Increase employment and attract small capital
6	Apiculture in the form of a cluster production system (value chain)	Subsidiary cities	-Increase production and employment and attract small capital
7	Breeding laying hens	Mahneshan, Khodabandeh, Taroom and Zanjan	-Increasing industrial egg production
8	Breeding Camels	Prone areas of Zanjan, Tarom and Khodabandeh cities	-Increased production of red meat

Business Development Section subsector investment priorities

Row	Project title	Project location	Related Potential / Advantage
1	Support the development and creation of agricultural companies	Subsidiary cities	-Increased marketing and value added of agricultural products - Regulation and stabilization of prices of agricultural products
2	Follow up to establish agricultural supply chains in all Subsidiary cities	Subsidiary cities	Increased marketing and value added of agricultural products - Regulation and stabilization of prices of agricultural products
